1. The Mission Statement of the LCD

The purpose of the “Learning Center for the Deaf” (LCD), which is a non-profit, non-political, and non-sectarian association, located in Baabda, Lebanon, is to provide quality programs to respond to the urgent needs of deaf persons in Lebanon, with emphasis on education, in its broad meaning, as a tool for change and advancement of the deaf community.

The team (management and teachers) of the LCD fervently believes in the empowerment of the Deaf in general, including the family of the deaf persons, and reaches out to the world of the hearing with information that helps spread awareness about deafness and how to deal with the Deaf.

Therefore the LCD has initiated challenging services and programs which were not available in the country before, in order to complement the existing programs and provide better possibilities and opportunities for the deaf and their family members.

The LCD today presents many important services to the deaf community in relation to the Disabled Persons Law 220/2000 and advocacy, to the development of Lebanese Sign Language, and other services. These were added to the two major and unique programs which were consecutively initiated by the LCD in 2001 and 2003, being the family based Early Intervention Program and the High School Program. The High School aims at providing the deaf young people the choice of passing the official Baccalaureate (High School) exams and heading to University, like their hearing peers. The Early Intervention Program which is a rich comprehensive program prior to school-age, is a stepping stone that empowers the family and provides them the tools to surround the child with a rich environment supportive to his/her general development, with a greater emphasis on language. This stepping stone preeminently determines the quality of the future life of many Deaf children.

For the further details of the LCD’s programs and activities, please go to the website page:

www.lcd-lebanon.org

And for the continuous updated information, please visit to our Facebook page:

www.facebook.com/Learning.Center.Deaf.Lebanon

2. *The Programs Offered at the LCD*

To respond the needs of the Deaf, there are programs offered at the LCD, which are incorporating as follows:

1. *The Early Intervention Program (birth to six years)*, which assists families of deaf children from babyhood, to prevent delay in development and mainly language, and especially to restore the relationship between the child and parents, as well as to empower the family to provide the child a healthy, nurturing and loving environment.

Other components of the Early Intervention Program are incorporated as follows:

- a. the **Support Group** for parents of deaf children
 - b. the **Course** related to deafness for parents of deaf children
 - c. the **Integrated Nursery** for deaf and hearing children
 - d. the **Resource Room** for parents, students, and professionals
 - e. the **John Tracy Clinic sequential lessons** for parents of deaf children
2. *The High School Education for the Deaf*, which provides the only secondary program in Lebanon, and allows the deaf to have the same right to enter University of their choice, thus promoting the image of the Deaf.
 3. *The Preschool Section (3 to six years)*, which is a regular school setting from KG 1 till KG 3, in preparation to enter the first grade level. This program that has been initiated beginning of October 2018 incorporate for deaf and hearing children.
 4. *Educational Activities for the Deaf*, which designs to promote adult deaf people to learn and improve specific subject matters, such as English language and computer literacy, as well as socialization and a chance to empower the deaf. Also, Sign Language courses for all interested concerned are provided in this program.
 5. *Technical School for the Deaf (New Program)*, which provides technical education such as accounting, computer sciences (graphic designs, AutoCAD, Architecture, etc.) allowing the deaf to have a choice other than academic education. This program lasts for 3 years and leading for Baccalaureate Technique issued by the Lebanese Ministry of Education.
 6. *Awareness programs about deafness and deaf people*, which has as an objective to promote the image of deaf people incorporates activities through media, brochures, and books. Activities in regular nursery settings as well as activities in school and university settings (experiment, telling a story interacting with a deaf puppet and introducing a deaf adult teaching some signs) are provided.
 7. *Consultation*, which provides consultations and advice for families of deaf children, as well as to deaf adults.
 8. *Sign Language Courses*, which provide courses for teachers of the deaf, specialists, students of the universities, interested persons, among others, mainly for communication access for deaf persons.

3. The Basic Data about the LCD

Name	The Learning Center for the Deaf (LCD)
Date established	January 2002
Legal status	<ol style="list-style-type: none"> 1. Charity Registration Number: AD 89, established 2002 with the Lebanese Government 2. Presidential Decree No.: 15798, established 2005 3. License # 2/294, 2018 (the Integrated Nursery)
Visiting address	Sacre Coeur Hospital Crossing, Presidential Palace Road, Near Evangelical Church, Brasilia – Baabda
Contact person	Hussein Ismail, Ed.D. Director
Telephone numbers	00961-5-954584 / 00961-3-700584
Fax number	00961-5-954584
E-mail address	lcd@lcd-lebanon.org
Website	www.lcd-lebanon.org

4. The Structure of the Learning Center for the Deaf (2018)

Board of Administration	
Chairman of the Board	Ms. Caroline Haykal (deaf)
Treasurer	Ms. Najah El Hamad (deaf)
Secretary	Dr. Hussein Ismail (deaf)
Accountant	Dr. Raed Mohsen
Members of the Board	Dr. Kim Abu Shackra Mr. Habib Fawaz (deaf) Mrs. Nadine Badreddine

Staff List	
1. Director / Instructor	Dr. Hussein Ismail (deaf)
2. Head of the Early Intervention Program	Mrs. Nadine Badreddine
3. Accountant / Auditing Office	Mr. Antoine Faddoul
4. Office Manager / Secretary	Mrs. Arzeh Lteif
5. Speech Therapist / Early Interventionist	Ms. Wafa Nawar
6. Speech Therapist	Ms. Yara Harb
7. Assistant Early Interventionist	Mrs. Karine Momdjian
8. Occupational Therapist	Ms. Hiba Saad
9. Domestic Helper / House Father	Mr. Elias Bou Mansour (deaf)
10. Nursery Teacher for Deaf Children	Mrs. Waddad Daher
11. Nursery Teacher	Mrs. Roula Jammous
12. Nursery Teacher	Ms. Lea Naameh
13. Preschool Teacher	Mrs. Sarine Simonian
14. Preschool Teacher	Mrs. Garine Nakour
15. Preschool Assistant Teacher (deaf)	Mrs. Antoinette Ibrahim (deaf)
16. Specialist/Teacher for the Deaf	Ms. Hanna Tahan
17. Cook / Mother House	Mrs. Margo Khandjian
18. Biology & Math Teacher	Mr. Mohammad Abboud/Hrag Hagopian
19. Socials, Arabic Literature Teacher	Mrs. Rozana Zaklit
20. English and Physics Teacher	Mr. Habib Fawaz (deaf)
21. Chemistry Teacher	Ms. Zeinab Al Zarief
22. Accountant	Mr. Charles
23. Computer Sciences	Mr. Assadour Khanjian
24. P.E. Teacher	Ms. Nour Zgheib (deaf)

Volunteers	
24. LCD's legal advisor	Mt. Rayan Kouatly
26. Psychologist – Family Counselor	Mrs. Charlotte Khalil
27. Hearing-Aid Technician	Mr. Joseph Zeidan / Mr. H. Houry
28. Family Counselor	Dr. Raed Mohsen

5. Statistical Data of the number of beneficiaries during 2018

Programs offered at the LCD	Number of Beneficiaries
Early Intervention Program	
Rehabilitation for Deaf Children with their Parents	36 (average - in house children) 90 approx.
The Support Group	6 - 9 families
Integrated Nursery	20 (average)
The Preschool Section	12 (average)
The Outreach Program	Unspecified
The Resource Room	Unspecified; open for all professionals
Educational Activities for the Deaf	
Sign Language Class	32
High School Education for the Deaf	
First Year	-
Second Year	-
Third Year	4 students (4 day school)
Graduated (July 14 th 2018)	8 students (2 boarders; 6 day school)
Technical School	
First Year	3 students
Awareness Programs about Deafness	Unspecified; National level

The Learning Center for the Deaf

Beirut – Lebanon

News & Activities of the LCD during 2018

6. *News of the Learning Center for the Deaf*

Introduction

Life in the last years has become very stressful in Lebanon due to the economic and political situation. The LCD has surely been affected by this general situation and among other challenges; it kept getting harder to find staff whose main goal was to help others. This is because surviving has become a primary goal for youth, who are striving to provide living necessities which have surely multiplied in today's modern life.

For an NGO, the challenges have surely multiplied too, and finding the means to survive while at the same time succeeding to provide a humanitarian spirit, is a no-more-guaranteed matter.

We are, therefore, always in a quest for creative ways to help us keep the humanitarian quality in our services,

and thriving to find a chore body of persons who can ensure that this quality remains as a chore element at the LCD.

One of the possible solutions for challenges with staff recruitment, was to hire University students to work with us in the Nursery on a part-time basis. Hiba, our Occupational Therapist, who also studied psychology, and who is a member of the Early Intervention Program team, has introduced a few University students to us. Some of the times we were luckier than other times, and lately we were very lucky to have Sandra who is a Psychology student who worked with us on a part time basis for twice a week. Sandra has a very gentle personality among many other qualities which could have lead someone in her place feel superior, but Sandra on the contrary has always shown humility as a signature of her character and not a result of a low self-image.

Despite of challenges, we are grateful to the Almighty God for His guidance and blessings for our services for the Deaf.

Common Trainings: Benefit for All

We are very much looking forward for the second round of the common training, which is benefiting all schools for the Deaf and professionals in the field.

Dr. Josephine Marriage is came to Lebanon on a voluntary basis for the 2nd time with

the aim of joining us in a practical training which aimed of benefiting all professionals working with deaf children, especially those in NGOs, in the field of audiology, for the benefit of the deaf child everywhere.

Dr. Marriage was not only providing the training for free; she was also paying her air ticket and brought with her some hearing aids and many batteries. It felt like Santa was coming whenever she came, which was surely due to her generosity, but much more to her kind personality, and her positive and loving spirit.

We also had special visitors who contributed for that common training in relation to the subject of communication for the deaf-blind child. We are blessed to find persons with such kindness and generosity in days where this has become rarer to find. Thinking of our appreciation for genuine support from hearts of kindness, we would like to take the chance to thank supporters who faithfully support our services for deaf children and their families, as well as deaf youth and adults.

Early Hearing Screening Campaign

The Early Detection campaign which was initiated with the help of the LCD has witnessed a new accomplishment. For a month, the Ministry of Health has launched a hearing screening campaign where the test is performed for free for newborns and babies in a number of public hospitals, and for a low cost in a number of private hospitals. It is the result of a donation of six OAE machines by a cochlear implant company. The Ministry of Health has created a committee in order to help this first step lead to a mandatory performance of the test and develop a comprehensive plan. Ads were on TV and many interviews took place in order to grow awareness on the importance of early detection of hearing loss.

The Love Birds: Sigrette's Story

One of the LCD's High School students Sigrette, who is now studying Biochemistry at the University, is remembered by most as the sweet young lady who together with Sameh were the love birds admired by all for the gentle relationship that bonded them;

always hand in hand and together.

Like many of the young people in Lebanon, Sameh travelled to study abroad, he is therefore in Holland today and has even learned some Dutch. Unfortunately, the relationship of Sameh and Sigrette could not survive the distance for a long time, which broke the hearts of everyone who knew them because they seemed to be made for each other.

Sigrette, however has also been enrolled at the University though in the beginning like many of the deaf students faced some challenges which needed intervention. After having guided her to communicate her problems with the right personnel, things were much better.

We were happily surprised with a visit by Sigrette to the LCD where she expressed her desire to volunteer at the LCD despite the fact that she is not quite comfortable financially herself. She explained that she wanted reciprocate the support to the LCD. This shows the unique spirit she has; a gentle and loving spirit; far from being egocentric. These qualities are becoming harder to find in a world which is becoming very individualistic, and where people are surviving rather than living. Sigrette is like a refreshing breeze in a hot summer season; may the Lord bless her.

Carol and Habib

Two of the High School students who did not start as love birds, when they were at the LCD became one and their love has been crowned with a wedding that gathered all their friends and family during the summer 2018.

Carol and Habib married on the 18th of August. Habib who started as a High School student at the LCD, as one of the eight High School

students who started in the first class at the LCD, and after having had two years vocational training, is now a teacher at the LCD's High School, is a Board member and is a member of the Lebanese Federation of the Deaf due to his great involvement and devotion. He is one of the team members who help make the LCD what it is.

Karine and Assadour

Another couple who are playing a very important role today at the LCD is Karine who was a Nursery teacher at the LCD, then a Preschool teacher and is now a coordinator, and her husband Assadour. Karine is among the few who did not leave for better opportunities in means of finances despite the available offers. Her devotion and love for the LCD and its mission, in which she identifies herself, were like magnet to her husband Assadour who has a master in mechanical engineering and is tempted to attempt working with us despite the other “better” possibilities available to him. Though this is a trial period which will determine if Assadour will be with us on a long term basis, we are touched to see people who are willing to make some sacrifices in order to play a role in keeping the spirit of the LCD a spirit of compassion for those who need our help and expertise. We are therefore looking forward to the developments in this relationship; embracing the present which brings encouragement and the sense that we are not alone on board.

Assadour is in charge of the vocational training program which we initiated.

The Trip to Beqaa Valley – Releasing Nostalgia

One of the encouraging encounters we delight in, was the visit of Dr. Josephine Marriage who has decided to carry a great responsibility with us, to launch the “Common Training Program”. The common training program is a wishful plan we hope to succeed establishing in Lebanon, to benefit NGOs through common trainings which they cannot have on their own.

Dr. Marriage decided to join us in this dream and has brought it to the first step of realization with the two visits she made to Lebanon, the last being in September 2018, with the aim to use her expertise to help train professionals from different backgrounds in better being acquainted with audiological matters, also giving way for audiologists to benefit from expertise after years of work and skill building in the field.

During her visit, Dr. Marriage who is helping some of the Syrian families through the LCD wished to visit the Beqaa Valley where most camps for Syrian refugees are known to be. We decided therefore to do so and to benefit from visiting one of our first EIP families in Beqaa, which is also a Syrian family of farmers who have been living in Lebanon long before the war in Syria started.

Amina and Adnan are the parents of 3 beautiful boys who are now young men, starting to come into adulthood.

Ali, who is 18 years now is the eldest and he was about to register in the LCD’s high school upon the mother’s phone call last year, but luckily, they found him a good accounting program not far from home, which Ali is now benefiting from, to be later joined by his brother Mohammed.

Both Ali and Mohammed are deaf and their youngest brother Moses is hearing, whom we discovered loves animals and is indeed raising different types of animals near their home, among which chicken, pigeons, ducks, etc. In fact, the family is hoping that Moses becomes a veterinarian doctor.

Moses was delighted to see our dog Rocky with us and showed us their two guarding dogs behind the house; we kept Rocky at distance.

It was not surprising to see that Ali and Mohammed are doing great in means of speech and language as well as overall development and performance in the regular school and life, despite of Mohammed's health challenges. In fact, since the family came many years ago for the first time at the LCD when the children were still very young (2 and 3 years), we could tell after a few visits, that these children will be among those who will benefit greatly due to the parents'

commitment, despite of being from a very humble background; these parents who came weekly from a distance and took quite seriously the home objectives. We were very touched when we visited them then, and saw how the mother was being creative in applying work with the children at home despite the fact that they lived in a 2-room tiny home, a sitting annex to a kitchen wall and a bedroom, in addition to the toilet naturally. The mother hang drawings that would help her promote the children's language on the wall and would continuously communicate with them.

We left the Beqaa with a big heart, having experienced the generosity and kindness of a family from a humble background, but which carries great riches of the most nurturing type, which grow on love and warmth, and are not easily found nowadays.

Nursery and Preschool

On the average, Integrated Nursery had between 18 and 22 children in one class, and the Preschool had 12 children. There were between 1 and 3 deaf children in the Nursery, and 3 deaf children in the Preschool during the year 2018.

We were, and still are, happy that these deaf children do well with other hearing children. These hearing children acted as a reverse integration into our program. We praise God that everything in these programs was going well and through these programs we were able to make some auto-financing means.

Graduation Ceremony 2018

Graduation Ceremony, held on Tuesday July 3rd 2018, for the 8 high school students who passed the official examinations, after they have been studying at the high school program for 3 years. These students have a bright future as they have dreams to pursue their further education towards university levels.

Hussein's Marathon

Despite of Hussein's busy schedule—work at the LCD, teaching at the university, working for the Lebanese Federation of the Deaf—he registered for the team to practice for the Marathon Run. This took place from June till November 2018, and the practice was mainly in the evening, and early Sunday morning.

During the practice phase, Hussein decided to run for a cause—to raise money for the LCD and the Federation. He then made video clips announcing on the Facebook, as well as in the website of the Beirut Marathon Association, to encourage interested persons to register for the LCD and the Federation.

Hussein ran the full Marathon run on November 11th, 2018, and as the result he raised \$2,070 for the LCD, and nearly \$400 for the Federation. Not bad as the start, though.

Sign language courses

Several sign language courses were offered at the LCD, across 2 levels (beginners and intermediate levels) for interested persons of different professions. One of the courses was assigned for parents of deaf children and they had learned this language in order to communicate effectively with their children. We have enjoyed so much by their presence as they were eager to learn this language and made a lovely atmosphere in the class. We wish more parents would be interested to register for this course again in the future.

Also, Hussein and Elias had the opportunity to teach this language to children of the Preschool Section. A fun learning experience for these children.

Initiating Vocational Training – Technical School

When the High School was initiated at the LCD, we had in mind that due to demand schools for the Deaf may start their own High School program; which will enable us then to consider initiating a vocational training program for the Deaf, in so providing more choices in vocational trainings available for the Deaf in Lebanon. The time came where we started to feel the need for initiating a vocational training program, but this is not because schools for the Deaf are starting their own programs, it is because fewer and fewer deaf students are choosing to continue their education and this is for several reasons, one of which is surely the socio-economic situation.

This is sad because the situation in general, whether in the services provided for the Deaf or the effect of the socio-economic situation, the negative effect is still greater on the Deaf than the Hearing.

Partnering with Pro-Abled

In Spring, a new partnership developed between an association working on providing job opportunities for people with disabilities and disadvantaged persons known as Pro-Abled, and the Learning Center for the Deaf and the Lebanese Federation of the Deaf the two associations which are working hand in hand.

We have already started to see good fruits for this partnership where a few deaf persons have found jobs due to this partnership and hopefully, with good organization networking and collaboration, this partnership may lead to further chances for the Deaf.

Workshop with the Syndicate of Nurseries

The LCD's awareness workshop with the "Syndicate of Nurseries Owners in Lebanon" took place on Saturday December 8th, 2018. Over hundred participants attended and enjoyed an instructive, interactive and fun workshop in relation to their role in early detection of hearing loss.

Fun-Fair “Kermess”

The Kermesse 2018 that was held at the LCD to help the fundraising for the building project succeeded to raise nearly \$850; to confirm upon finalizing the counting.

However the greater success was in the pleasant atmosphere created by the loving effort of Assadour and Karine, who got assisted by many, which brought a spirit of joy and peace and surely great fun among both hosts and visitors.

Visitors

During the year 2018, likewise during the past years, we have several visitors attending to the LCD. These visitors were from Lebanon, from the Arab world, and from the rest of the world.

There were many, but to name few. We were so honored by the visit of Mr. Tim Livesey who is a CEO of our supporting organization—Embrace the Middle East—in England, also accompanied with Mr. Jamie Eyre (Project Director) and Mrs. Sophia Peiris (Project Coordinator).

Mr. Colin Allen, who is the President of the World Federation of the Deaf also visited us, extending 2 days. Mr. Allen's purpose was to empower the Deaf. We were so happy by the wonderful visit of our wonderful supporters, Mr. Anton Scheele, together with his wife, Geraldine, who have been supported our work, together with Anton's mother, Elisabeth, since the inception of the LCD, way back to 2001. During May, we had wonderful visit of our dear friends from Switzerland—Mr. Hans Silberschmidt and his son, Dario, and Dr. Fritz Wunderli. Hans is the Treasurer of the organization—Circle-Friends of the LCD-Switzerland—and Dr. Fritz is a board member. They stayed at the LCD's guest rooms for about a week and have enjoyed the visit, mainly to observe and understand our work, as well as understanding about the situation of Lebanon and the crises with the refugees. Upon their return to Switzerland, they have written an excellent report about their experiences in Lebanon.

Visit to the Presidential Palace

The visit was made together with Mr. Colin Allen, President of the World Federation of the Deaf, as some board members of the LCD and the Lebanese Federation to the President of Lebanon, Mr. Michel Aoun. The purpose of that visit was to inform him about the situation of the Deaf in Lebanon, discussing about the Law regarding the disabled which was not satisfactorily and thereupon asked the President to give pressure on the Lebanese Government to accept the UN Convention on the Rights of Persons with Disabilities (UN-CRPD).

Advocacy for the Deaf

Several campaigns and advocacy programs were performed during the year 2018. Some of which were highlighted as follows:

1. Driving License for the Deaf – to change the Law which allows the deaf to obtain the driving license as their hearing peers.
2. Hearing detections across different levels, at Syndicate of Nurseries and at the Ministry of Health one
3. Collaborating with the Lebanese Federation of the Deaf (LFD) to empower the Deaf
4. Together with the LFD, pursuing with the Ministry of Telecommunication to

provide a free bundle of 3GB for the Deaf, which was successfully implemented during November 2018.

5. Hearing Screen for babies was successfully implemented during February 2018, as the Minister of Health applied this program across the six hospitals in Lebanon, as a start.
6. Worked with the LFD in production of the video clip for the Election during May 2018. This was requested by the Ministry of Interior, through the organization—Handicapped Union.
7. Flyers were developed for the Arab Deaf Week, thanking the companies that hired the Deaf.
8. Participated to the several meetings on the issue of human rights, at local and government levels.
9. Providing lectures, workshops, seminars, on the issue of deafness to different settings (Syndicates, government departments, etc.). Also, the LCD prepared a special video with the input of the professors who couldn't attend to the workshops.
10. Specifically, Awareness Workshop at the Higher Council of Childhood and Development Center, under the Ministry of Social Affairs: Role of Workers in Public Nurseries in relation to Early Detection of Hearing Loss, during June; and the second one during December.
11. During May 2018, the LCD, represented by Nadine, presented her resignation to the National Council for Persons with Disabilities, to express her objection on the malfunction of the Council.
12. Worked and promote captions (subtitles) on major TV programs for the Deaf to understand the programs.
13. Awareness about the Deaf: Preparation of a Documentary about the Deaf and their needs and challenges, by Arabic BBC, with the help of LCD.
14. Job Opportunities for the Deaf
15. Brining the voice of those unseen: awareness through Haitham's case for children who have no institutions to support them.
16. Among others.
